An open letter to the Senators and Members of Parliament of Canada, requesting an immediate response as to why Canadian Citizens are being selectively harassed and abused on the basis of whether they will acquiesce to forced experimental medical procedures.

1.1 Response Desired . . . . .	2

## 1 Honourable Senators and Members of Parliament;

I write to you in your esteemed position as a Senator or MP in our great nation.

As history unfolds, great men and women have a very few single moments that define their entire careers.

Today is such a moment, for you.

When history looks back at this moment, when:

- Free citizens were de-humanized and driven from civil, cultural and financial society – because they opted to not receive an experimental medical treatment,
- Law-abiding citizens of Canada were named Terrorist Financiers for supporting peaceful demonstrators,
- The RCMP was directed by a sitting government to override peaceful protestors, destroying centuries of international reputation of a venerable Canadian institution in an instant.

In this moment – your name will be emblazoned in history. When history reads your name, what votes will it be beside?

Will it be on the side of freedom, liberty and peace, alongside names like John A. MacDonald and Martin Luther King? Like the framers of the US Constitution and Canadian Charter of Rights?

Or, will it be on the side of dehumanization, tyranny and hate, like those Canadians who established the Internment camps for Canadians of German or Japanese descent during WW-I and WW-II? These names, and yours, will now be written into history beside the name – tragically – Trudeau: The name that authorized the overriding of unarmed, peaceful citizens by unrepresentative thugs associated with the national police force of Canada.

Trudeau: the name that ejected hundreds of thousands of Canadians from their jobs, their businesses and their society – because they refused to be forced to receive experimental medical treatments. And then, beat and abused them at the hand of the national police force, forever besmirching the good name of the Royal Canadian Mounted Police.

Please, make a principled stand. The fate of the free citizens of Canada is at your will and under the power of your hand, right now.

Your family's history is at stake.

## 1.1 Response Desired

I would appreciate a reasoned response, as to why I, my family, and hundreds of my friends and acquaintances have been suddenly transformed from honourable Canadian citizens, into de-humanized, unwanted and marginalized former citizens?

Just last week, I was a programmer and business owner who had written the staggeringly complex and nationally critical communications software underpinning our trans-national oil pipeline. Now, I am at risk of losing my business, cannot get a job, and have been named a potential Terrorist Financier by my Prime Minister?

My step sister is currently a senior RCMP member in Alberta, and my best friend is a former RCMP Tactical Team officer. They are now forever besmirched by internationally embarrassing comments like “Time for the protesters to hear our jackboots on the ground”. Is this the group of RCMP officers our Prime Minister has collected to do his appalling bidding "on the ground" in our nation's capital?

**This is so nationally embarrassing, it is difficult to find the words of rebuke appropriate for those holding public office who are responsible for this travesty.**

What do you say to me?

–
